Education

FAST - National University of Computer and Emerging Sciences, Islamabad.

Bachelor of Science (Software Engineering)		**2026**
Major:	Data Structures and Algorithms, Software Architecture & Design, Operating Systems, Database Systems, Machine Learning, Artificial Intelligence, Distributed Systems, Software Project Management.	
F.G. Sir Syed College, Rawalpindi, Punjab		**2022**
F.Sc (Physics, Chemistry, Mathematics)		
Siddeeq Public School, Rawalpindi, Punjab		**2020**
Matriculation (Physics, Chemistry, Math, Biology)		

Projects

***Final Project*: Prismora AI – AI-Powered Podcast Summarization Platform [React Native, NestJS, FastAPI, Whisper AI, Transformer NLP, OpenCV]**

Designed and developed an AI-powered platform that converts long-form podcasts into structured transcripts, AI-powered summaries, highlight reels and personalized content feeds with community curation capabilities.

Semester Projects:

SalesCare Service Center Management System [React.js, Node.js, PostgreSQL]:
Designed a full-stack enterprise management system with complaint workflow tracking, and inventory management.
Cloud Photo Gallery Application [AWS, Node.js, React.js]:
Built a scalable cloud-native gallery system with secure authentication, S3-based file storage, and RESTful APIs.
Ergonomic Posture Assessment Agent [FastAPI, MediaPipe, OpenCV]:
Developed an AI agent that analyzes posture from images and provides ergonomic feedback via REST APIs.
AI-Powered Code Assistant [Python, PyTorch, CodeT5, FastAPI]:
Developed an AI-based assistant that explains code, generates documentation, detects bugs, and suggests improvements using transformer models.
University Management System [MERN Stack]:
Developed a web application for academic and financial operations including student, faculty, and admin modules.

Work Experience

Web Development Intern, E-Counting 360 (Private) Limited, Islamabad. Built responsive React-based interfaces and contributed to full-stack MERN applications by integrating backend APIs and optimizing database interactions.	**Jul 2024 - Aug 2024**

Skills & Tools

Professional Skills	Problem Solving, Analytical Thinking, Team Collaboration, Communication
Technical Skills	JavaScript, TypeScript, React.js, Node.js, Express.js, React Native, Python, NestJS, PostgreSQL, MongoDB, AWS (EC2, S3, RDS), Docker, REST APIs, Machine Learning, NLP, Flutter, Dart, Git.

Achievements

Competed in User Experience Design Competition (NaSCon'25)
Participated in Trillet AI Voice Hackathon (FAST-NUCES)
Designed and deployed multiple AI-powered applications integrating NLP and computer vision models.

Training / Certification

AWS Cloud Quest – Cloud Practitioner (AWS Skill Builder).
AWS Academy Cloud Foundations.
IBM Developing Front-End Apps with React.
IBM Introduction to HTML, CSS, & JavaScript.
Flutter & Dart Development (Udemy).

Activities/ Interests

Artificial Intelligence Applications, System Design, Startup Innovation.
